## Mission:

What? Construction building service.  
To Whom? Industrial and commercial concerns.  
How? By invitation to tender or referrals.  
Based on? Providing a reliable, warrantable product/service that will stand the test of time.

## Vision:

- To be the first choice civil engineering firm nationally, with a focus on infrastructure and heavy industries.
- To supply the best quality crushed aggregates, premix asphalt and concrete to large-scale projects.
- To continuously enhance and build a strong management/technical team to strive towards a sustainable, environmentally friendly engineering approach with utmost care for the people and their surrounding environment.

## Introduction:

---

BRIMA BUILDING & CONSTRUCTION LIMITED was incorporated in 2021 as a Building and Civil Engineering contractor. Through the years it has grown to be an integrated construction company with support operations in: Logistics, production of crushed stone aggregates, asphaltic concrete batching, mining natural gravels, and manufacture of common precast concrete units.

We also deal with supplies

A wealth of experience, wide integration and comprehensive inventory of equipment and

construction machinery has made BRIMA BUILDING & CONSTRUCTION LIMITED one of the largest contractors regionally; Certified by the National Construction Authority for Road Works, Building works and Water works. The company's headquarters are situated along Lumumba Road, Mombasa. BRIMA BUILDING & CONSTRUCTION LIMITED is well known nationally and is a member of the Kenya Association of Building and Civil Engineering Contractors (KABCEC), and The

Roads and Civil Engineering Contractors Association (RACECA).

## Guarantees and Insurance:

The company is insured generally for construction work at any one time worth up to KES 50,000,000. Furthermore when a new contract is signed we immediately insure the job for the requisite amount and this protects the client against site risks (CAR policy).

## Quality Control:

The company contracts recognized quality control institutions and materials consultants such as SURTECH who perform tests for; concrete cube capacity, CBR of gravels, Bore tests etc. This ensures quality long lasting products.

## What we do:

### Road & Highway Construction

Site clearance, sub-base/base formation, soil stabilization, asphaltic concrete laying and surface dressing, AC overlays, bridges and box culverts, storm drainage systems.

### Yard Construction

Natural gravel or Graded crushed stone bases, Fibre Reinforced Concrete and RCC hard-standing areas, Paving block surface (Cabro), Asphaltic concrete surface.

### Building Construction

Hotel/apartment complex, warehouses, housing developments and private homes, perimeter walls, etc.

### Slope Protection

Stone pitching, Gabions, Geotextiles, Retaining walls.

-

### Pre-Cast Concrete Products

Spun concrete culverts, concrete building blocks of various sizes, concrete paving blocks, road kerbs, road channels, slabs and various other precast units.

-

### **Hard Stone Quarrying**

Boulder for rip rap, hard-core for road bases. Production of various sizes of building aggregates for use in concrete, asphalt, graded crushed stone, etc

### **Road & Highway Construction:**

Road building is one of the major sectors the company operates in. With over 30 years experience in building and maintaining roads, from simple gravelling on country roads to class A roads with high traffic counts. The company has experience with the numerous complexities of highway construction, and has successfully undertaken the design and construction of several types of pavements and wearing courses.

A 100 Tons/hr mobile asphaltic concrete batching plant can be set up on any site allowing quick production of different graded asphalt mixes.

The company has constructed several major bridges as a main contractor and sub contractor. RESILIENT SANTE SYSTEMS LIMITED was sub contracted to do the New Nyali approach roads and main bridge asphalt works by the then Main Contractor M/S Sumitomo Construction Co. Ltd. The Company was also subcontracted by Sumitomo on the subsequent construction of Kilifi Bridge access roads, the company also supplied the building materials and aggregates for both jobs.

In 2021– 2022 BRIMA BUILDING & CONSTRUCTION LIMITED constructed the Gitiburi Bridge while undertaking the construction of the Siakago-Kiritiri Road C107, a 14m wide by 61m long bridge under KeNHA.

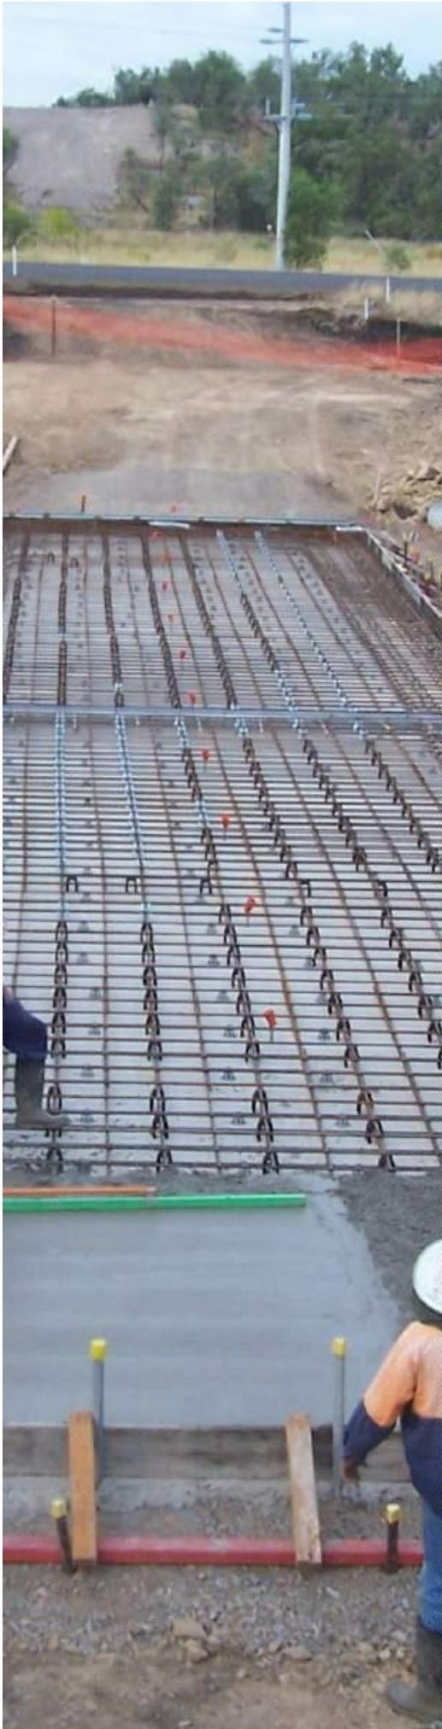

### **Yard Construction:**

We are experienced in all types of yard construction and have completed; - 40,000 m<sup>3</sup> in concreting hard-standing areas; - 1000+ acres of leveling and graveling yards - and Over 200 acres of Cabro (PCC Paving Block) Yards. This includes several public works on large scale yards and in the Kilindini port of Mombasa (Kenya Ports Authority), as well as several private logistics yards and CFS's; Mitchell Cotts CFS, Boss Freight Terminal, AO Bayusuf Transporters, Southern Shipping Services Limited, Anwar Ali and Brothers Limited and several others.

### **Health & Safety Commitment:**

The company has a comprehensive Health and Safety policy to ensure the wellbeing of all company employees and the public at large. We provide our clients with responsive, safe and reliable services while adhering to the ideas of sustainable environmental requirements. We give priority to Environment, Health and Safety in all projects. We believe that EHS contributes to our competitive strengths and benefits our clients, shareholders and employees by contributing to the overall well-being and economic health of the communities we serve.

The management believes that effective management of Environmental, Health and Safety.

Management issues is fundamental to success, and is therefore committed to continually improving the EHS performance through setting and monitoring of objectives and targets, necessary training, encouraging new ideas, employee participation, coordination with clients, suppliers and annual management reviews.

### **We do so by adhering to the following principals:**

#### **A. Communication:**

We continuously engage our employees, clients and suppliers for input on local conditions and sustainable practice.

#### **B. Prevention:**

We employ an EHS Officer on each site to prevent activities and conditions that pose a threat to human health, safety or the environment. We minimize risk and protect our employees and the communities in which we operate by employing safe technologies and operating procedures .

#### **C. Compliance:**

Strict compliance to EHS standards is a key component of our training, performance reviews and incentives to all employees. We comply with all applicable laws and regulations.

## **Heavy Machinery :**

All operators of heavy machinery are provided with adequate and visible clothing, including overalls with reflective strips, helmets, safety boots, safety goggles, gloves and dust masks (for open machinery)

Foremen and labour assisting or around heavy machinery will always wear a reflective jacket or hi-vis overall, safety boots, gloves, safety goggles and dust masks. Maintenance- machines to be serviced as per scheduled intervals, inspection and if needed inspection/replacement of tyres and other perishables should be done at minimum monthly basis. Tarmac work and other labour

related works :

- The company maintains a fleet of 3 asphaltic concrete pavers to undertake jobs of varying sizes/widths. If only one paver is required another is kept on standby to ensure continuity. The asphalt labour team is professionally kitted out in heat resistant overalls, gloves and safety boots (with pan attachments for those walking on fresh tarmac), along with the standard PPE's; Safety Goggles, Helmets, Reflective strips.
- The equipment for the labour including rakes, brooms, spades etc. will be purchased new to a high standard to ensure the safety and productivity of the labour.

#### **First aid and emergency care:**

The company ensures that there is always a first aid kit available on all sites and in each machine, this alleviates the chance for infection in the event of small injuries, the company provides the foreman on site with an emergency injury budget for extraordinary cases in remote areas to be spent at the nearest hospital or clinic.

Work Injury Benefit (WIBA) protects against serious injury
